

Team Contract

Firm Name: ZNERV

Date: 09/09/2026

You will be collaborating with your team for the entirety of the course. Before the project begins, it is important to establish a plan to manage and execute the project effectively. As a team, please fill out this team contract to establish goals, expectations, procedures, and consequences. Then, digitally sign your name to indicate your agreement.

GOALS: What are our team goals for this project? Who will be the team leader? What do we want to accomplish? What skills do we want to develop or refine?
• Leader: Akshit Gupte • Build non-invasive neuromodulation Spinal Stimulator • Build a wearable device easy to use by the user and doctor • Build an UI to make it user friendly • Skills needed: Hardware, Software, Electrical, Biomedical concepts, and signal acquisition.
EXPECTATIONS: What do we expect of one another in regard to attendance at meetings, contribution, taking responsibility, valuing team members' insights, etc.?
• To attend all the meetings as scheduled and be flexible to work more if needed in certain weeks • Give constructive criticism and take feedback positively • Making sure the individual's assigned work is taken responsibility for • Continuous expectation of improvement from each other's work, and valuing everyone's perspective
PROCEDURES: What rules can we agree on to help us meet our goals and expectations? How will we divide our work? Where and how will we record the team's work division?
• Working independently and discussing problems during team meetings. • Come up with ideas and discuss them during team meetings • We will divide our work during team meetings and complete goals by week • Minutes of meeting
CONSEQUENCES: How will we address lack of contribution, not following the contract, and general disagreements within the group?
The first step will be to successfully communicate the issue and discuss it with the team members directly. If the work is still not completed, proceed to bring it up and address it in the team meeting. If the issue is still not solved, raise the issue to
